Our vision is straightforward - open access for disabled people on waters everywhere via a range of Wheelyboat models to meet everybody's needs.

Wheelyboats provide disabled people with hassle-free and independent access to a variety of waterborne activities. They are designed to accommodate disabled people, and wheelchair users in particular, easily and safely enabling them to actively participate on the water on equal terms with their able-bodied counterparts.

- 'Roll-On, Roll-Off' access
- flat deck providing access to all corners of the boat
- accessible helm or drive-from-wheelchair console allowing disabled people to drive the boat themselves
- use as a trip boat or small ferry as well as for pleasure boating, angling and nature watching.
